

CITY OF LODI

COUNCIL COMMUNICATION

AGENDA TITLE: Traffic Resolution Amendment - Angle Parking on South Side of Pine Street, between Church Street and Sacramento Street

MEETING DATE: June 3, 1998

PREPARED BY: Public Works Director

RECOMMENDED ACTION: That the City Council adopt the attached resolution amending Section 4 of Traffic Resolution 97-148 by approving angle parking on the south side of Pine Street, between Church Street and Sacramento Street.

BACKGROUND INFORMATION: On May 5, City staff met with business owners in the downtown area to discuss parking issues. A number of problems and possible solutions were discussed in an effort to improve the current situation. One possible solution City staff agreed to review was the placement of angled parking along the south side of Pine Street, between Church Street and Sacramento Street. Currently, the south side of these two blocks of Pine Street have parallel parking.

As a result of this review, staff is recommending that angled parking be placed along the south side of Pine Street. This will provide an additional eight (8) parking spaces.

In addition, and as a result of the meeting with the business owners, staff will be reviewing methods for improving the usage of downtown public parking lots by employees of downtown businesses and the addition of parking along the north side of Walnut Street, between School Street and Sacramento Street. This area of Walnut Street is currently being used as a bus-staging area. These buses will be moving to the Multimodal Station after construction is completed. It is anticipated that an additional twelve to sixteen parking spaces can be created.

Staff will be coming back to the Council later this summer for approval of the Walnut Street parking and with recommendations for improving the usage of the downtown parking lots.

FUNDING: Funding from the Street Maintenance Account for striping modifications on Pine Street will cost approximately \$500.
